

EUVAS SYMPOSIUM

20 June, 2026

Conference venue: Fabryczna 13 Conference Center, CKF_13

20 June, 2026

15:00-20:30 EUVAS Symposium

EUVAS Symposium Programme

15:00-15:10 Welcome to the EUVAS Symposium

Marcin Adamczak, Katarzyna Krzanowska, Jacek Musiał, David Jayne

15:10-15:35 Standard of care induction treatment of AAV - where are the controversies?
Lorraine Harper

15:35-16:00 AAV subphenotypes and implications for treatment
Augusto Vaglio

16:00-16:25 Complement inhibition and B cell therapy development in AAV treatment
David Jayne

16:25-16:40 Q&A
Lorraine Harper, Augusto Vaglio, David Jayne

16:40-17:00 break

17:00-17:25 What does the nephrologist want from the kidney biopsy and when to repeat?
David Jayne

17:25-17:40 Long term outcomes in AAV
Beatriz Sanchez Alamo

17:40-18:00 Co-morbidities in AAV
Oliver Flossmann

18:00-18:15 POLVAS registry
Katarzyna Wawrzycka-Adamczyk

18:15-18:30 Q&A
Beatriz Sanchez Alamo, Oliver Flossmann, David Jayne, Katarzyna Wawrzycka-Adamczyk

18:30-18:50 break

18:50-19:15 Infections, drugs and other vasculitis triggers and mimics
Lorraine Harper

19:15-19:40 Current approaches to induction and maintenance treatment of EGPA with a focus on the kidney
Augusto Vaglio

19:40-20:25 AAV case discussions

Discussants: Augusto Vaglio, Lorraine Harper, David Jayne

1. Aleksandra Rymarz, Jolanta Malyszko

Department of Nephrology, Dialysis and Internal Medicine, Warsaw Medical University, Poland

„Coexistence of double-positive vasculitis with PR-3 ANCA and anti-glomerular basement membrane antibodies with urothelial carcinoma – coincidence or common pathophysiology?” (7 min)

2. Justyna Fryc, Beata Naumnik

1st Department of Nephrology and Transplantation with the Dialysis Unit Medical University of Białystok, Poland

„When Chondritis Meets Glomerulonephritis: Relapsing Polychondritis as a Preceding or Overlapping Manifestation of pANCA-Associated Vasculitis” (7 min)

3. Joanna Król, Katarzyna Krzanowska

Department of Nephrology and Transplantology, Jagiellonian University Medical College

“Bacillus Calmette–Guérin immunotherapy for bladder cancer can lead to granulomatosis with polyangiitis” (7 min)

4. Katarzyna Wawrzycka-Adamczyk, Mariusz Korkosz

Department of Rheumatology and Balneology, Jagiellonian University Medical College

“Pregnancy-onset, treatment-refractory granulomatosis with polyangiitis with progressive, severe tracheobronchial stenosis as a main manifestation: successful treatment with a C5a inhibitor” (7 min)

Discussion (17 min)

20:25-20:35 Concluding remarks

Jacek Musiał, David Jayne

20:35 Zakończenie Konferencji

Katarzyna Krzanowska, Marcin Adamczak
